Figures shown are indicative and shown for comparability purposes only. Figures for the 63kWh and 87kWh 2WD derivatives are homologated, whilst all other derivatives are pending official homologation in 2022. Actual real-world driving results may vary. The range figures may vary depending on factors including the starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load. The other figures shown are based on internal testing data of battery and drive-train variants and may vary depending on multiple factors such as optional equipment, battery condition, climate control, maintenance, driving behaviour and non-technical factors like weather conditions, actual route etc. Information does not constitute part of the offer. Nissan expressly reserves the right to modify at any time.
